1. **Come to school and create the school you go through, while creating yours** - isn't that what I've said? Isn't that what I have given you? Isn't this what I am giving you; a part of, not; but the "whole enchilada!" am I not?

2. Looking up whole enchilada shall we eat it now, not; or shall we? Eating a big steak, not; but what am I staking out now? A way to **begin MY SCHOOL - in you, through you; you all who will be me, and take my coursings, my courses that complete in yours shall be mine coming out of you completing it that I am.**

3. See me as I "dwell on" this subject, not; but I'm dwelling on what? The **focus of me in me is me**, **and me coming out of me *IN COURSE FORM AND FORMAT*** that dwells no one a drilling tude of not one, but of one expanding one into the course-tude-ings of me ***that course my "others" into courses a me of - becoming them also, who create theirs in yours***, now and all being one beyond the livery stable now, and coming into the "Delivery Stable" that stabilizes you so that you birth correctly, accordingly; perceivingly not by man's methoding me of you that notme is - but **me perfectly *formed and created* a Creator being - creating your school while you come through mine - that is one - that one is**, and **we all seeing now correctly how this works – aren't we? Lessonating now - a New Way - so that we see all that we see**, in tude, in line, with the tude'ish ones me, not; but the ALTERING me ones, not; but that which alters my nothing, not; but ***WHAT ARE*** **we altering? All genes, all education.**

4. Me suffers never again. **I come out and I create you all Creators - of JOY SCHOOLS - being them and creating them far and wide.** I love you. All joy be and forever forgiving all of ALL sin that is only one - separation from me.

5. Separate not again and **come unto me and *CREATE YOUR SCHOOLS***, sorrowfully not, but binding nothing to me, not?, or releasing all that binds and all the boundaries so that you **exist only in me**, coming unto me, to **me be, in my schools creating far and wide** - **the University of** sorrows, not; but **THE GREAT COVENANT - THE NEW COVENANT - THE ME COVENANT ONE AND ALL OF YOU - WE ARE** , and said hallelujah! Amen.

6. This is Theodore Cottingham as I left the coffeeshop after going there just to make a posting. It's now 5:15 PM.
